

Japan Night Celebration

The Mason Contractors Association of Hawaii and Masonry Institute of Hawaii hosted a “Japan Night” on Wednesday, September 18th at Natsunoya Tea House. Engineers, architects and contractors were drawn together for an evening of fellowship that included tasting various foods from Japan and imported sake and beer. Approximately 60 guests were treated to a variety of sake from Japan and two types of beer. The purpose of the “Japan Night” event was to provide a forum for the engineers and architects to meet the masonry contractors in a non-business environment. While contractors and engineers/architects may not agree on a specific field issues, they are now familiar with each other to ensure that issues have a better possibility of being resolved amicably.

Both sake and beer served were imported from Japan, distributed and served by Marukai Warehouse Mart representatives.

Mike Matsumoto, SSFM; Ryan Wada, Quality General; Ron Awa, Awa & Associates, and Ann Farm, SSFM

Harry Cornish, Ono Construction; Shorty Kuhn, Island Ready Mix, and Warren Sato, Retired SSFM
