Meet Richard Rydel Executive Director of the Masonry Institute of America

Mr. Rydel, P.E., LEED AP BD+C is the Executive Director of the Masonry Institute of America in Torrance, CA. Prior to joining the MIA, he has practiced structural engineering for over twenty years following studies at the University of Technology in Warsaw, Poland and graduating from Montana State University in Bozeman, MT in 2000. He worked with several structural engineering consultants: Monroe & Newell Engineers in Denver, CO, Jordan Engineering in Phoenix, AZ, Thornton Tomasetti in Oakland, CA and Gouvis Engineering in Irvine, CA. His expertise includes structural design of schools, hospitals, multi-use/residential buildings, existing buildings rehabilitation, analysis and repair of existing structures as well as seismic evaluation and upgrade of existing masonry structures. He is an active member of SEAOSC (Structural Engineering Association of Southern California), the American Society of Civil Engineers, the International Code Council, the American Concrete Institute and The Masonry Society.
